# Decoland Border Edge

Decoland Border Edge is an innovative solution for people who are looking for a functional and aesthetic product that fits perfectly into any type of garden and plot.

The border edging helps to keep order and separate flower beds and green lawn from the alley. The border edging can be adapted to your individual needs, as they are both malleable and extremely robust and also distinguished by their extraordinary durability.

Resistant to difficult weather conditions, like hot sun or heavy rain, thanks to this, they do not lose their properties for a long time, which makes it an ideal solution for many years.

## Technical Specifications\*
