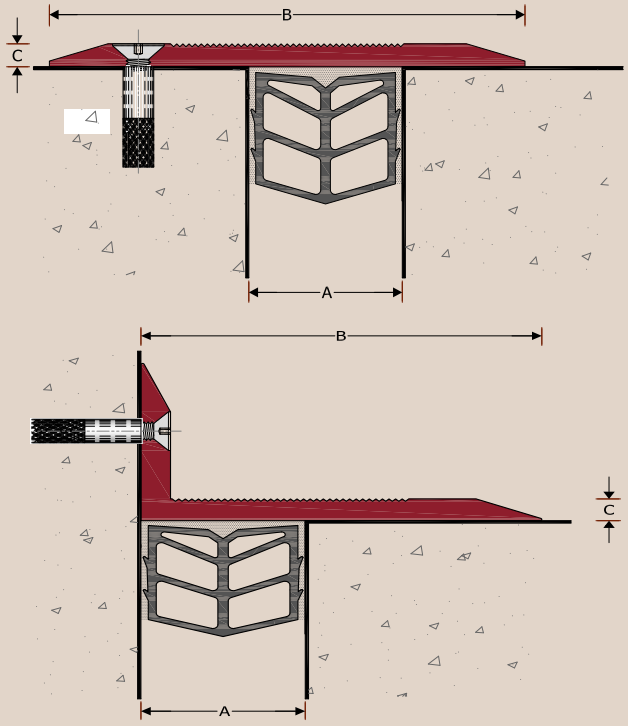
Decoland Joint Covers are extruded anodized heavy duty joint covers used for joints in heavy duty applications such as warehouses, ramps and car parks.



Mechanical Properties

Property		Typical Results
Tensile Strength (MPa)	:	185
Shear Strength (MPa)	:	75
Hardness (BHN)	:	55

Type	A	B	C	D
DXJ 80	5-50	80	3	-
DXJ 160	51-100	160	3	-
DXJ 200	101-150	200	3	-
DXJL 80/80	40	80	3	80
DXJL 80/120	80	80	3	120

* In favor of product improvements, specifications may change without prior notice.
* Dimensions and thickness can be made in different specification than above standards according to customer requirements.

Material

6063/T6 Anodized aluminium
Can also be supplied in mill finish aluminium.

Packaging

All the profiles are supplied as standard 3 m long modules. Custom lengths can be produced to order.

Installation Guidelines

Wherever possible install the expansion joint module at the mid-point temperature at which will be the joint will be operated. It is essential that the joint is installed perfectly level and is well anchored in order to perform correctly.

Health and Safety

This product is for industrial use only by trained operatives. It is not considered hazardous if used correctly.
